

EC 40

Svegea EC 40

The Svegea EC 40 handles body size and large diameter tubular knitted and woven fabric. It is capable of cutting binding from 16 - 140 mm in width (5/8 - 5 1/2"). The standard machine cuts 2 bands simultaneously (additional bands with extra knife units).

The Svegea EC 40 incorporates our proven and very reliable knife system. This system offers the fastest and most simple width adjustment of any machine available. It also guarantees very little maintenance cost.

An electronic foot controller allows the operator both hands freedom. The operator is free to place the foot controller in a position he or she finds most comfortable to operate the machine, this combination will ensure an optimal ergonomic working position for the operator.

Tension on the cut binding is variable, assuring the highest quality results.

With 50 years of experience in exclusively designing, manufacturing and installing collarett band cutting machines, Svegea offers the most complete line of collarett cutters, EC 40 economy machine, further enhances the Svegea family of collarett cutters.

Main features:

- Cuts virtually all knitted and woven fabric
- Simple and precise guides makes the machine easy to adjust and operate
- Produces top quality – relaxed binding
- Very low waste
- Cutting knives of high-grade steel
- Limited working parts for very low maintenance
- Economically priced

Technical specifications:

Fabric width capacity:	27 - ∞ cm (11 - ∞")
Binding width:	16 - 140 mm (5/8 - 5 1/2")
Number of bands:	2 (additional bands with extra knife units)
Cutting capacity:	Infinitely variable, 0 - 30 m/min (0 - 33 yards/min)
Cutting system:	sharp cutting blades
Power supply:	230 V 50-60 Hz, single phase
Drive motor:	3 phase asynchronous, 0,12 kW
Speed control:	Electronic
Machine weight:	45 Kg
Floor space:	55 x 100 cm (21 - 40")
